

ChemeDox

Cost Benefits

ChemeDox[®]

Do you know the true cost to your business of updating and managing your chemical Safety Data information?

Case scenario

- Are you spending too much time and money managing SDSs and related documents (such as COSHH assessments)?
- Do you need a powerful management system that is ready for REACH and GHS compliant SDSs?
- Do you have problems with accessing important Health & Safety information?
- Would you prefer to concentrate on pressing Health & Safety issues?
- Do you want to be at the cutting edge of Health & Safety compliance?

ChemeDox[®] is an online, simple to use, chemical safety document management system that will save you money and, equally importantly, help you to comply with appropriate legislation through:

- Providing a safe, secure and robust storage system for your Safety Data Sheets (SDSs)
- Overcoming the need for setting up and maintaining an expensive internal system
- Allowing easy searchability of your SDSs and other health and safety documentation*, such as COSHH assessments and other HSE/risk assessment documentation
- Providing GHS search fields that are updated by our experts
- Helping you keep your SDSs up-to-date in light of imminent REACH changes
- Providing real-time access to HSE information for all relevant personnel across all of your organisation's sites
- Enabling the time for completion of generic HSE documentation, and for auditing, to be reduced
- Allowing simple searches for chemical products by those that are not specialists, for example, using shop floor abbreviations/acronyms
- Providing chemical safety information to your staff to ensure that they understand the broader risks associated with using chemical products within the work-place environment
- Freeing up valuable time that is currently wasted on health and safety documentation issues
- Using our Gold service, leaving the maintenance of your SDS updates to NCEC

Understanding your costs

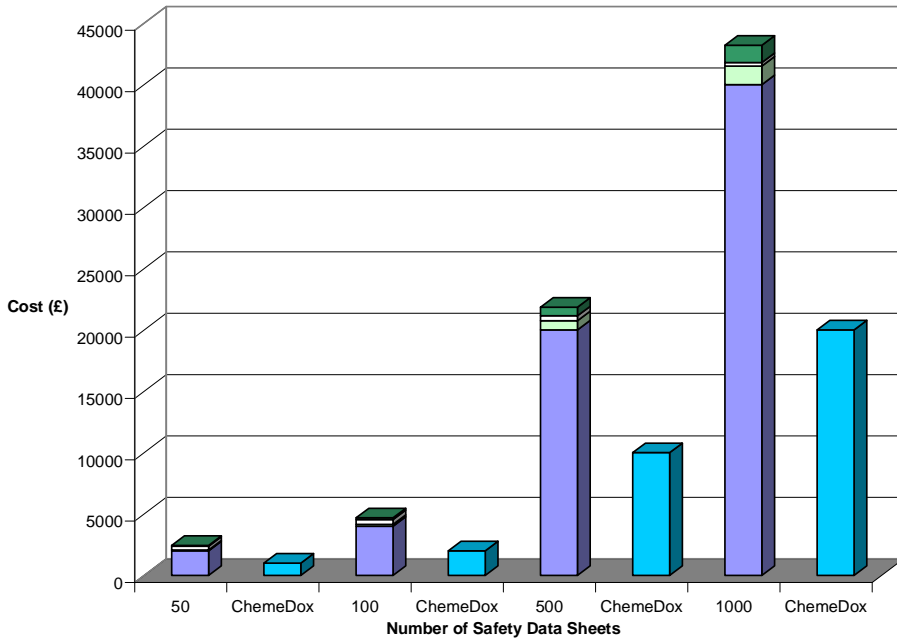

Have you thought about the time and costs associated with the following:

- Updating your SDSs to ensure that your COSHH assessments are kept up-to-date?
- The way that you are currently storing HSE documents – do you currently have several management systems or perhaps no real system at all?
- The ease of access to your HSE documents both from a management perspective and to your workforce?

What is your likely return on investment from using ChemeDox®?

The graphs below allow you to visualise the real financial benefits of managing your Safety Data Sheets using the ChemeDox® system from NCEC.

Graph 1 - Cost of using a simple internal data storage system in comparison to ChemeDox® Gold Service

Graph 2 - Cost of building an efficient, compliant, user friendly SDS management system in comparison to the ChemeDox® Gold Service

The graphs above are based on figures derived from our experience of managing SDSs for a broad range of companies. If you require a more detailed explanation of how these costs are calculated please contact us.

Please note that these graphs are intended as a guide to give an indicative estimate of potential cost savings that could be achievable when using ChemeDox® Gold. NCEC assumes no responsibility or any liability whatsoever for any losses, costs or any damages that result from use of or reliance on information contained within these graphs, howsoever arising.
